Cambridge, Massachusetts 02138

Dear Alexander:

What a wonderful surprise - the gift from you brought by Karla Hansen: "A Chemical Love Story". I have not had time yet to look into it, but when I get a publisher off my back December 1, it will be on my reading list. A thousand thanks for remembering me.

I rarely get to California now, although I am on the Scientific Advisory Board of a newly established pharmaceutical firm dedicated to investigation of aboriginally used medicinal plants - Shaman Pharmaceuticals, San Carlos, Cal. I was supposed to go to their meeting in August, but I was in hospital with a Streptococcus infection of the digestive tract.

All the best & thanks again.

Dick Schultes
